To Whom It May Concern:

This is a letter of praise about **Don Pasquarella**. My husband and I were very impressed by his extensive knowledge of the mechanism of chair-lifts, and especially by his work ethic. His willingness to persevere in determining a chair-lift solution to accommodate my particular needs was most gratifying.

At all times, his concern for my safety was paramount to him, and his regard for the most cost-effective solution for us was very much appreciated. He set an example of what a very honest and experienced business person should be. We cannot thank him enough for his patience and his kindness.

I also would like to acknowledge and thank **Craig Wilson**, who worked with Mr. Pasquarella. He was very helpful, patient and knowledgeable as well.

Sincerely,

Sharon B. Abrahams
